What are students saying about the ASC?

**Academic Coaching**

"Academic coaching has helped me immensely, I really want to thank the program and especially my coach for being there for me because transitioning from community college to university and then from online to in-person has been really hard."

"My coach was very good at creating a welcoming environment that made me feel comfortable and willing to try something new."

"My coach was very reliable and was always super nice. She never judged me for anything I did ‘wrong’ or needed improvement on (i.e., skipping class from lack of motivation, not turning in assignments, etc.) and was always focused on helping my issues."

"My coach had resources for almost every struggle a student can have. As a student with multiple struggles (procrastination, time management, note taking, motivation, etc.), it was really great to be given resources and methods to help out each issue."

**Supplemental Instruction**

"Going to SI makes me realize that I’m not alone in understanding topics. I leave with a better understanding than I came with."

"I really enjoy SI and recommend it to everyone I know."

"SI is one of the most important resources at ISU to me. They have helped me and many others so much in my academic career. I couldn’t have passed this class without them."

"SI is a great resource that integrates having fun with peers along with having a greater understanding for class material and feeling more confident for exams."

**Tutoring Services**

"Tutoring has helped me change my fixed mindset of wanting to quit because I am getting a bad grade to recognizing my potential and seeing that I am not alone in this and have someone who is willing to help."

"Tutoring services has really helped me with my academics and has even led me to friends I cherish!"

"Tutoring is personally one of the best things about ISU."

"I will continue to use the ISU tutoring services as they have helped me so much and have opened doors to peers and study groups which further help my learning. I have been inspired to become a tutor."

We **support. You succeed.**
