Tutee Survey Data | Spring 2020

**Class Climate**

**Tutor Feedback Comments**
- Absolutely loved her! Never had any issues. She has been patient, understanding and immensely helpful. Could not do this class without her.
- Through the few weeks that you were my tutor, I learned a lot from you! You did a better job at explaining material than the instructor did. Thank you so much!
- He has done a great job of helping to prepare us for the material and gave us great tips and tricks to make the material easier to understand and remember.
- My tutor is doing a great job. She explains things very well and is extremely helpful. I learn most of the material through her because I understand her ways of explaining it much more than the instructor himself. She does a great job of being inclusive and is always prepared.

**Estimated Grade Impact**

- Participating in tutoring has improved my overall academic skills.
- I am satisfied with Tutoring Services provided by the Academic Success Center.
- I would recommend Tutoring Services to other students.

**Online Instruction Comments**
- Online tutoring works a lot different than in person, even though there have been some kinks in the plans, everything has been very helpful and very accommodating.
- Great. I was worried that tutoring might not be able to happen which worried me a lot but my tutoring resumed and is still extremely helpful.
- Although it’s online discussion, my tutor can arrive on time every time and help me solve many problems, not only through every discussion, but also through email. An online instruction does not affect the quality of the discussion.
- It has been difficult to find motivation to go to tutoring, but [my tutor] has made it a good transition, including giving us work sheets and sending out their work after the session.
